The WICHE Student Exchange Programs

STATISTICAL REPORT
Academic Year 1987-88

WICHE
Improving Education In The West

WICHE AND STUDENT EXCHANGE

For the academic year 1987-88, this report presents statistical information concerning five mechanisms of student exchange through which some 1,900 residents of 14 WICHE states attend certain undergraduate, graduate, and professional programs not available in their home states, at reduced levels of tuition.

Programs to encourage and assist sharing of facilities and education programs among the states underlay the initiative in 13 western states in creating, early in the 1950s, the Western Regional Education Compact and with it, the Western Interstate Commission for Higher Education (WICHE). The founding group was augmented in 1985 with the affiliation of North Dakota.

The Professional Student Exchange Program is the oldest and largest of the WICHE exchange programs. Students pay resident tuition (approximately one-third of regular tuition in private institutions) and the sending states pay an additional "support fee" established by WICHE. The program was initiated in medicine, dentistry and veterinary medicine. Over the years since the program began in 1953, the three initial fields have been expanded to 16.

The Western Regional Graduate Programs came into operation in 1981, extending tuition reciprocity initially in five and ultimately (fall 1987) in all WICHE states except California, in designated graduate programs. Programs are nominated by the sponsoring institutions and chosen after an extensive review intended to assure that the programs are distinctive. Students pay resident tuition. There is no additional state payment in this program.

The Community College Student Exchange Program provides opportunity for eligible students in Idaho, Montana, North Dakota, and Wyoming to attend a community college at resident tuition in the other three states under either of two concepts: (1) the college attended, though across a state line, is closer to the student's home than a community college in the home state; or (2) the receiving college has designated the field in which the student enrolls as a "regional curriculum."

The Mineral Engineering Program opens opportunity for enrollment, at resident tuition rates, in geological, metallurgical, mining, and petroleum engineering and in mineral processing to residents of WICHE states in which such opportunities are not available.

An expanded undergraduate exchange program, the Western Undergraduate Exchange (WUE) will be initiated in Fall 1988, offering a wide range of programs in two-year and four-year colleges and universities, and is expected to supplant the Community College Student Exchange and Mineral Engineering Programs (except for continuing students). Nine and possibly as many as ten WICHE states are expected to offer programs open to WUE students. Residents of those states will thereby be eligible for WUE tuition status in other participating states. WUE students will pay resident tuition plus 50 percent of that amount, plus the special fees that are required of all students. This level of tuition appears to be sufficient to lead many institutions to offer a range of programs at the same time that this tuition level will give WUE students and parents a substantial tuition advantage compared to regular nonresident rates.

Through WICHE Scholars, any WICHE state may assist its residents in any field at any degree level, by providing the difference between resident tuition (paid by the student) and the receiving institution's nonresident tuition (in private institutions, as in PSEP, the student normally pays one-third of regular tuition and the remainder is covered by the support fee paid by the home state).

In this annual statistical report, Tables 1 through 5 provide enrollment and financial information concerning the Professional Student Exchange Program. Information about the other exchange programs follows these tables. For all programs, further information is available from WICHE at the address on the back cover.

TABLE 1

Professional Student Exchange Program
Summary of Enrollment and Fees for Purposes of Comparison

PROFESSIONAL FIELD	NUMBER OF STUDENTS ENROLLED 1986-87	SUPPORT FEE RATE	1987-88	SUPPORT FEE RATE*	1988-89 SUPPORT FEE RATE*

Number of Programs:	Public - 105	Private - 39	Total - 144
Number of Institutions:	Public - 37	Private - 22	Total - 59

*The support fee rates established by the WICHE Commission for the 1987-89 biennium in Group B fields provided an exception for students who began PSEP enrollment prior to June 1987. This exception stipulates that the support fee payable in 1986-87 continue in effect for the duration of these students' enrollment.

Regional Graduate Programs

The Western Regional Graduate Programs (WRGP) began in 1981 in Alaska, Idaho, Montana, Oregon, and Washington. With the addition of other states in subsequent years and after several program nomination rounds, by fall 1987, the activity included 35 institutions and 95 programs, and all WICHE states except California.

All states and institutions cooperate in the program selection process. Programs are selected because they are not commonly available and are found to be of quality.

The Western Regional Graduate Programs activity differs from the Professional Student Exchange Program in several ways:

- The focus is different: The programs in WRGP are primarily in the sciences and liberal arts rather than in professional fields.
- The reciprocity agreement is simple: Participating states agree to admit WRGP students at resident tuition rates. Private institutions reduce tuition by at least one-fourth.
- Administration is primarily local: Students apply directly to the graduate programs in which they are interested, identifying themselves as WRGP candidates. No other applications (e.g. for WICHE or state agencies) are employed.

The Western Regional Graduate Programs brochure, which lists all programs and institutional contacts, is available from Cherie Pederson (303) 497-0224 or Richard Markwood (303) 497-0220.

(a) Excludes enrollments in Masters of Social Work at Eastern Washington.
(b) Includes enrollments in Masters of Social Work at Eastern Washington.

Community College Student Exchange Program

The Community College Student Exchange Program (CCSEP) is a mechanism through which four participating states (Idaho, Montana, North Dakota, Wyoming) send and receive students on a resident tuition basis, in two categories: (1) the college attended is closer to the student's residence than a community college in the home state; (2) the program in which the student enrolls is designated by the cooperating college as a "regional program," open to students from the participating states. Some institutions extend the tuition advantage to residents of states other than the four that participate on a reciprocal basis.

CCSEP showed continued growth in total number participating. Last year there were 280 students in the "closest college" group and 208 in the designated "regional programs" while in the current year, there are 235 in "closest college" and 283 in "regional programs." Montana students continued to dominate the exchange, with 136 Montanans enrolled in Idaho, 78 in North Dakota, and 222 in Wyoming, a total of 436. The College of Southern Idaho continues its policy of permitting Nevada students to enroll as residents. Eastern Wyoming and Northwest Wyoming community colleges continue to admit a few residents of WICHE states not participating in CCSEP. Of the 16 colleges participating, 11 enrolled one or more CCSEP students this year.

As we have noted in earlier reports, though Montana sends the largest number of its residents to other states participating in CCSEP, it is the largest receiver in the Mineral Engineering Program.

\# WICHE states only, not participating in CCSEP.
* College of Southern Idaho: NV - 47.
** Eastern Wyoming College: AK - 1, CO - 1, OR - 1, WA - 1. Reported an additional 38 nonresidents enrolled at resident rates of whom 34 are from Nebraska and South Dakota.
*** Northwest CC: AK - 1, CA - 3, CO - 1, NV - 1, NM - 1, WA - 3.

Mineral Engineering Program

Twenty-six students from nine WICHE states are enjoying reduced tuition charges through the Mineral Engineering Program, a program that for fifteen years has extended opportunity to residents of the WICHE states to enroll, at resident tuition charges, in baccalaureate programs in geological, metallurgical, mining, and petroleum engineering and in mineral processing, in six participating institutions in Alaska, Arizona, Idaho, Montana, Nevada, and Wyoming.

Mineral Engineering Program Enrollments, 1987-88

NV	1					1				2
WY							1			1
TOTALS	4	1	2	1	3	3	3	4	5	26

Scholars Program

WICHE Scholars is a program through which WICHE states may extend tuition assistance to residents in programs not available in public institutions in the home state and not available in other WICHE exchange programs. The student pays resident tuition (one-third of the standard tuition charge, in private institutions); the sending state pays, through WICHE, the remainder of either the nonresident tuition charge or of the regular tuition (in private institutions). In 1987-88, 39 students are participating. Wyoming is the only state that regularly sends students in this program.

WICHE

Improving Education In The West

WICHE, the Western Interstate Commission for Higher Education, is a nonprofit regional organization. It helps the thirteen member states and one affiliated state to work together to provide high-quality, cost-effective programs to meet the education and manpower needs of the West. Member states are Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming; North Dakota is an affiliated state.
